Insures against loss or damage sustained because of a final decree that the mortgage, as it secures additional interest, is invalid or unenforceable or does not share the same priority as is afforded the principal of the loan secured by the mortgage.

- It affords additional interest the same priority as the secured principal amount of the insured mortgage.
- Bankruptcy, unconscionability, or unreasonableness are not covered as these are acts of the insured.
- The lender must advise as to the amount of the additional interest.

It provides coverage similar to a swap endorsement, except where the additional interest is derived from something other than a swap.

Please [Click Here](#) to view/download the ALTA 12.1-06 Aggregation – State Limits Loan Policy Endorsement.

ENDORSEMENT COVERAGE:

Endorsement aggregates the amount of insurance available under several policies insuring the same loan.

It is often issued in a multistate transaction and gives the lender coverage equal to all policies in the transaction. However, the limit for New York-based properties may not exceed the amount of principal on which mortgage tax is based.

Example: If there are four mortgages on four different parcels of land in New York and two mortgages in Connecticut, each policy worth \$5M, the Cluster Endorsement allows coverage of \$30M.

- The lender can only recover the amount that mortgage tax was actually paid on in NY. Mortgage tax must be paid on the \$20M to get coverage of this amount.
- If there is a loss on one of the mortgages in the amount of \$6M, the policy will be reduced to \$14M.

UNDERWRITING:

- Confirm the NY mortgages recite a maximum secured amount.
- All policies to be aggregated must be issued by the same underwriter at the same time.
- Mortgages on multiple sites need to be cross-defaulted and cross-collateralized unless cross-collateralization increases the amount of the mortgage recording tax.
- Applicable mortgage recording tax must be paid.
- Properties can be mixed as residential and commercial.

ALTA 36 SERIES ENERGY ENDORSEMENTS OVERVIEW

These endorsements are a series designed specifically for energy projects (*e.g.*, wind farms, solar farms, traditional electricity generating facilities, etc.). Such projects may include fee parcels, leaseholds, and/or easements (or a combination thereof) and the series are designed to accommodate these different estates in the land flexibly. Accordingly, versions of this endorsement include coverage for fee estates, leasehold estates, and/or easement interests (or a combination of these interests). A blend of assorted 36 series endorsements will often be issued within the same policy to address these “combinations.”

The ALTA Endorsements 36-06, 36.1-06, 36.2-06, 36.3-06, 36.7-06, and 36.8-06 are all similar in their use of coverages and loss calculations commonly found in the prior leasehold policies, but now applied to leasehold, easement, fee, and loan structures.

The ALTA 36.4, 36.5, and 36.6 take certain concepts of the 9 and 28 series and add additional definitions and coverages as described below and in the succeeding sections of this Guide.

A key feature of the 36 series is the expanded and additional definitions of “Land” under the policy to include “Electricity Facility” and “Severable Improvements,” and if the same is yet to be constructed, may be entitled to certain coverages as-built (but in advance), so long as said improvements are constructed according to “Plans” as defined in the Endorsements.

Another feature is the concept of a “Constituent Parcel,” with an aggregation-type feature. The endorsement provides that, in the event of an eviction or ejection, as applicable, caused by a covered matter affecting any Constituent Parcel, the computation of loss or damage resulting from the eviction shall include loss or damage to the integrated project. This series provides for additional items of loss, not typically found in a leasehold or fee policy.

The ALTA Energy Project Endorsements (ALTA Endorsement 36, 36.1, 36.2, 36.3, 36.4, 36.5, 36.6, 36.7 and ALTA Endorsement 36.8) contain similar provisions to some common endorsements you may regularly issue in commercial transactions. However, because of the radical change to certain key definitions and loss provisions, you may **NOT** issue the following endorsements when offering the Energy Project Endorsements:

1. ALTA 9, 9.1, 9.2, 9.3, 9.7 and 9.10
2. ALTA 13 and 13.1 (Leasehold)
3. ALTA 28, 28.1, 28.2 and 28.3

ENDORSEMENT COVERAGE:

Absent this endorsement, under a loan policy, the insured must foreclose on all collateral before loss can be determined. For losses exceeding ten percent of the Amount of Insurance, the Company will not require, prior to making a claim, either acceleration of the indebtedness or the exercise of remedies against other collateral.

In the event of a claim resulting from a Covered Risk insured against by the policy, the Company agrees to pay that portion of the Material Impairment amount that does not exceed the extent of liability imposed by Section 8 of the Conditions without requiring:

1. Maturity of the Indebtedness by acceleration or otherwise,
2. Pursuit by the Insured of its remedies against the Collateral, or
3. Pursuit by the Insured of its remedies under any guaranty, bond or other insurance policy.

“Material Impairment Amount” means the amount by which any Covered Risk under the policy for which a claim is made diminishes the value of the Collateral below the Indebtedness. Absent this endorsement, no loss will be suffered if the loan can be recovered from other collateral.

UNDERWRITING:

- Typically issued with Aggregation Endorsement - ALTA 12-06 or 12.1-06
- It must be multi-site. Example: 2 condos in one building do not constitute multi-site.
- Review and confirm the New York mortgages recite a maximum-security amount.

GENERAL ENDORSEMENT

Applies to:

- Residential
- Commercial
- Fee
- Loan

Charge: \$0.00

Please [Click Here](#) to view/download the General Endorsement

ENDORSEMENT COVERAGE:

The General Endorsement addresses three topic areas of coverage, all without charge:

- To amend or correct a previously issued Policy.
- To provide coverage for party wall concerns (most commonly, but not exclusively, in the NYC metro area) - See Section 32 B of the Rate Manual for the specific language to be used.
- To provide coverage for loss arising from the exercise of specific rights of first refusal (ROFR)/offer or options – See Section 32 C of the Rate Manual for the specific language to be used.

UNDERWRITING:

- For the “Amending/Correcting” use of the General Endorsement, “Amend” should be read to be a synonym for “correct,” *i.e.*, this Endorsement is not to be used to alter coverage because of a post-Policy change in facts or the like, or to add coverages which the parties forgot to request at the time of closing.
- With respect to Party Wall coverage,
 - Under NY case law as well as the NYC Administrative Code, adjoining property owners enjoy reciprocal easements over the entire party wall. However, a predicate is the determination that the wall is a party wall. Surveys can help, but most conclusive is the existence of a recorded Party Wall Agreement. Many of these agreements were recorded long before the customary 40-year search, but references to said agreements have often been found in conveyance instruments recorded since then.
 - Use the Rate Manual language for the endorsement. Coverage should never go to the costs of compliance with any Party Wall agreement.
- ROFR/Option coverage
 - Underwriting this area where careful legal analysis is required – after review of the ROFR or option, the first determination is whether the instrument applies to the contemplated transaction (*e.g.*, ROFRs contained in a lease often do not apply to refinancing).

- If the instrument applies to the transaction, underwriting must ensure that the provisions were either complied with (e.g., notice to the correct address, and appropriate time elapsed) or waived (such as in an SNDA or the like).
- It is important to remember that ROFRs often cannot be omitted, in that they often “reset” and apply to the next sale transaction, even if satisfied during the instant transaction. Thus, use of the general endorsement rather than omission, is the appropriate method of underwriting the coverage.
- We suggest contacting a Stewart underwriter before providing this coverage.

Provides insurance to an Investor that the Company will not deny liability to the insured by reason of knowledge imputed to it through a partner, shareholder, or member with a current interest in the real property. An Owner's Policy may be issued for the benefit of each Investor or the Vestee.

There are three Non-Imputation Endorsements:

Additional Insured

- Owner's Policy is issued to a Vestee acquiring or holding a Real Property Interest and the Additional Insured is the Investor or another party who is designated by the Vestee as having an interest in the Real Property.
- The additional Insured as set forth in the endorsement is the Investor.
- The Insured is the Vestee and the Vestee must "sign off" on the body of the Endorsement.
- The minimum amount of the Policy is no less than the amount equal to the FMV of the Real Property Interest.

Full Equity Transfer

- Owner's Policy is issued directly to the Vestee of the Real Property Interest and where the Investor is acquiring 100% interest in the Vestee.
- The Insured is the Vestee.
- The minimum amount of the Policy is no less than the greater of the FMV or the consideration paid for the Real Property Interest.

Partial Equity Transfer

- Owner's Policy is issued to an Investor acquiring less than 100% Interest of the Vestee.
 - The Insured is the Investor.
 - The minimum amount of the Policy is no less than the greater of the amount equal to the FMV of the Real Property Interest multiplied by the Investor's percentage interest in the Vestee or the consideration paid for the Real Property Interest.
- *Each Endorsement insures that the Vestee is the owner of the Real Property.*
 - *The Endorsement does not insure that the Investor is the holder of an interest in the Vestee nor the extent of that interest.*

- *None of the Non-Imputation Endorsements may be added to a previously issued Owner's Policy.*

UNDERWRITING:

- Underwriter approval is required.
- An affidavit and financial statements from the selling parties who have or may have any knowledge which may be imputed to the purchaser. The affidavit must be executed by individuals with knowledge, not merely the entity in title. The underwriter will require the names of the individuals of the selling parties. These would be the affiants under the affidavit.
- The “insured” does not refer to the insured as defined in the policy but the insured under the endorsement. The first full sentence of the endorsement begins, “The Company insures (insured). . . .” In this context, the term “insured” is the new owner or owners of the equity interest in the insured owner under the policy.
- The endorsement should be completed as follows:
 - The first blank in (a) (i) of the endorsement is completed with the percentage interest being acquired by the new owners.
 - The second blank in (a)(i) is the insured under the owner's policy – i.e., the name of the entity in title. If the endorsement is to an existing policy rather than a new owner's policy, be sure that the entity in title has not changed.
 - The third blank in (a)(i) and the blank in (a)(ii) again is completed with the percentage interest being acquired by the new owners.

Please [Click Here](#) to view/download the ALTA 40.1-06 Tax Credit Defined Amount – Owner’s Policy.

ENDORSEMENT COVERAGE:

1: Endorsement adds new definitions to Owner’s Policy:

- a. “Tax Credit Investor” means _____ (Endorsement requires the Name of the Tax Credit investor to be inserted).
- b. “Tax Credit” means a tax credit in effect at Date of Policy pertaining to the Land that is available to the Tax Credit Investor under an applicable section of the Internal Revenue Code or other applicable law.
- c. “Additional Amount of Insurance” means \$ _____. It is in addition to the Amount of Insurance stated in Schedule A and is applicable only to loss or damage payable to the Tax Credit Investor under this endorsement. (applies to ALTA 40-06 Tax Credit Defined Amount – Owners Policy only)

2: Both versions of ALTA Endorsement 40-06 add an additional amount of insurance for the tax credit investor for the reduction of the value of the tax credits to the extent that the loss of the tax credits is caused by a matter covered by the policy. Both endorsements insure against loss or damage sustained by the tax credit investor by a reduction in a tax credit that is caused solely by a defect, lien, encumbrance, or other matter insured against by the policy, subject to applicable conditions and limitations. Neither endorsement insures the tax credit itself or the costs to defend or establish eligibility. The endorsements are designed for use only on an Owner’s Policy. The tax credit investor must be specifically identified in both endorsements.

3: Differing provisions

- The endorsements differ primarily in that ALTA Endorsement 40-06 Tax Credit Defined Amount – Owners Policy specifically allocates an Additional Amount of Insurance for tax credits, while the ALTA Endorsement 40-06 Tax Credit – Owners Policy does not.
- ALTA Endorsement 40-06 Tax Credit - Owner’s Policy contemplates that the Amount of Insurance stated in Schedule A includes the aggregate of: (a) the value of the Land, and (b) an additional amount for the value of the tax credits. ALTA Endorsement 40-06 does not specifically designate the portion of the Amount of Insurance allocated to the tax credits.

Under ALTA Endorsement 40-06, loss or damage under the endorsement is limited to the Amount of Insurance shown in Schedule A.

- Under Section 6.a of ALTA Endorsement 40-06, the Insured assigns to the Tax Credit Investor the right to receive payment under the policy, but only to the extent of the reduction in the amount of a tax credit. Under Section 6.b of ALTA Endorsement 40-06, such payment to the Tax Credit Investor shall reduce the Amount of Insurance payable under the policy.
- ALTA Endorsement 40-06 Tax Credit - Defined Amount - Owner's Policy provides for the specification of an Additional Amount of Insurance that is applicable only to the loss or damage payable to the Tax Credit Investor. This amount must be inserted in Section 2.c. This amount is in addition to the Amount of Insurance stated in Schedule A. Under ALTA Endorsement 40-06 Tax Credit - Defined Amount - Owner's Policy, loss or damage under the endorsement is limited to the Additional Amount of Insurance shown in the endorsement. ALTA Endorsement 40-06 Tax Credit - Defined Amount - Owner's Policy does not contain an assignment of the Insured's rights to receive payment under the policy or a provision reducing the Amount of Insurance on account of a payment under the endorsement.

UNDERWRITING:

- With respect to both versions of ALTA Endorsement 40-06:
 - The premium to be charged should be calculated based upon the aggregate of: (a) the value of the Land and contemplated improvements; plus (b) the amount of the tax credits (whether or not specified in the endorsement); and
 - Insert the name of the Tax Credit Investor in Section 2.a.
- With respect to ALTA Endorsement 40-06 Tax Credit – Owners Policy only, the Insured (not the Tax Credit Investor) must sign the endorsement.
- With respect to ALTA Endorsement 40-06 Tax Credit - Defined Amount - Owner's Policy only, in Section 2.c, insert the Additional Amount of Insurance that is applicable only to loss or damage payable to the Tax Credit Investor under this endorsement.
- Must be agreed and consented to by the fee owner/insured and the tax credit investor.
