

# New Process for Texas TIP Seminars

Easier to Use and  
More Interactive Than Ever

We're pleased to announce a significant upgrade to our TIP seminars for Texas users. It's sleeker in design, with a user-friendly interface and more engaging, interactive content. Now it's easy to select the credits you wish to receive when you take the seminar. Just follow the simple steps in the seminar video instructions and you'll receive the credits you choose. Here are some of the finer details on how the new process works.

We will no longer use passwords to confirm attendance/participation for processing CE Escrow Officer and CLE State Bar Attorney Credit in Texas.

After these three steps, you will be asked to select your credits and enter your information.

Each seminar video will guide you in the process to receive credit. Please watch carefully and follow instructions.

- ▶ The video will track your completion of the seminar. You cannot skip ahead – you must watch the video in its entirety to receive credit.
- ▶ Complete an attestation of completion, certifying that you completed the entire course by yourself.
- ▶ Complete a multiple-choice quiz after completing the video. Questions will cover the content presented during the seminar.

- ▶ If you request CE credit, provide your escrow license number and your first and last name.
- ▶ If you request CLE credit, provide your Texas State Bar license number and your first and last name.
- ▶ If you request both, provide your escrow license number, Texas State Bar License number and your first and last name.
- ▶ If you request none, you need to provide only your first and last name.
