

A Streamlined Customer Experience

With Remote Online Notarization

Stewart Title believes in providing a great experience and in making it easy for your clients to sign on their real estate transaction. By offering remote online notarization, we provide the most important element of that great experience: **customer convenience.**

RON gives your clients the option to sign from anywhere at any time, whether they're at home, down the street, out of state or even abroad. Documents are uploaded to an online platform, and by way of videoconferencing your customer can meet with an online eNotary through their computer or tablet to sign their documents.

Visit stewart.com/RON for more information about remote online notarization.

Contact your Stewart Title representative to set up your remote online notarization with us today.

Stewart Title & Trust of Tucson, Inc

stewart.com/tucson

Remote online notarization moves transactions forward, while streamlining the process:

- ▶ Collaborate online.
- ▶ Sign outside of normal business hours.
- ▶ Review documents ahead of signing.
- ▶ Monitor transactions in real time.
- ▶ Enjoy increased security through video recording and identity authentication.

Trademarks are the property of their respective owners.

Remote online notarization may not be available for all transaction types or all parties of the transaction, and some restrictions and exceptions may apply.
