

Stewart Title provides **Wire Fraud Protection**

Buyers and sellers have lost billions of dollars to wire fraud in the last few years alone, and the problem is only getting worse. Without protection, your clients are at risk every time they wire money or information. Cybercriminals target unsuspecting buyers and sellers and divert money into fraudulent accounts by:

 **Hacking emails**

 **Impersonating title companies**

 **Spooing real estate agents**

And once the money is gone, it's gone.
